

The background features a large, abstract graphic of a white, glossy, flowing ribbon that curves and folds across the frame. The ribbon is set against a solid teal background. The lighting creates highlights and shadows on the ribbon's surface, giving it a three-dimensional appearance. The overall aesthetic is clean, modern, and tech-oriented.

eset PROTECT ENTRY

Modern multilayered endpoint protection
featuring strong machine learning
and easy-to-use management

PROTECT ENTRY

- Management Console
- Endpoint Protection
- File Server Security

Protect your company computers, laptops and mobiles with cutting-edge security products all managed via a cloud or on-prem management console.

- The easily accessible ESET PROTECT management console can be deployed on-premises or in the cloud, depending on user requirements, offering lower TCO security management.
- Single-pane-of-glass remote management for visibility to threats, users and quarantined items.
- Company endpoints and mobiles protected via advanced multilayered technology, now with brute force attack protection.
- Best-in-class endpoint security, utilising ESET's verified layered approach (combining the best of all worlds: cloud-based reputation, machine learning, and deep behavioral inspection).
- Award-winning endpoint protection combines the latest machine learning techniques with decades of human expertise.

Digital security on a tight budget? ESET PROTECT Entry On-Prem is available with onsite deployment of the security management console.

MULTILAYERED ENDPOINT PROTECTION TECHNOLOGY

ESET Endpoint Security provides strong malware and exploit prevention and can detect malware before, during and after execution. Now it also features anti-password guessing technology.

ESET Server Security provides lightweight multilayered server protection, to ensure business continuity.

- Block targeted attacks
- Prevent data breaches
- Stop fileless attacks
- Detect advanced persistent threats

REMOTE MANAGEMENT CONSOLE

ESET PROTECT is a cloud-based or on-prem, multifunctional remote network security management tool for ESET business security products across all operating systems. It enables one-click security deployment and the cloud console gives you network visibility without the need to buy or maintain additional hardware, reducing total cost of ownership.

- Seamless setup and deployment
- Cloud deployment does not require additional hardware or software
- Single point of network security management
- Saves time with automated tasks

All ESET endpoint solutions are managed from a Unified Endpoint Management (UEM) console, ESET PROTECT, ensuring a complete overview of your network.

About ESET

For more than 30 years, ESET® has been developing industry-leading IT security software and services to deliver comprehensive, multilayered protection against cybersecurity threats for businesses and consumers worldwide.

ESET has long pioneered machine learning and cloud technologies that prevent, detect and respond to malware. ESET is a privately owned company that promotes scientific research and development worldwide.
