Extended Detection and Response (XDR)

Today, organisations need increased visibility into their computers to ensure that emerging threats, careless employee behaviour and unwanted applications are not putting company profits and reputation at risk. The ESET Extended Detection & Response (XDR) solution delivers enterprise-grade security and risk management capabilities to allow quick analysis and remediation of any security issue in the network, including advanced threat defense technology that prevents new, never-before-seen threat types and a full disk encryption capability for enhanced data protection.

HOW YOUR ORGANISATION WILL BENEFIT

- Unique behaviour and reputation-based detection that is fully transparent to security teams and gives them real-time feedback gathered from over 100 million endpoints in our LiveGrid.
- Improved protection against ransomware and zero-day threats via cloud-based sandboxing technology.
- Helps comply with data regulations with full disk encryption capabilities on Windows and macOS.
- Single-pane-of-glass remote management for visibility of threats, users and quarantined items.
- Company endpoints and mobiles protected via advanced multilayered technology, now with brute force attack protection.

A FULL SPECTRUM OF CAPABILITIES

MULTILAYERED ENDPOINT PROTECTION INCLUDING SERVER SECURITY

ESET Endpoint Security provides strong malware and exploit prevention and can detect malware before, during and after execution. Now it also features anti-password guessing technology.

ESET Server Security provides lightweight multilayered server protection, to ensure business continuity.

- Block targeted attacks
- Prevent data breaches
- Stop fileless attacks
- Detect advanced persistent threats

ESET'S XDR-ENABLING TOOL

ESET's XDR-enabling solution, **ESET Inspect**, boosts breach prevention by delivering enhanced visibility, threat hunting, and incident response capabilities that are designed to mitigate any discovered threats.

- ESET Inspect analyses vast amounts of data in real time, so no threat goes undetected
- Offers synchronised detection and remediation of threats in multiplatform environments
- Flexible deployment options, via cloud or on-prem installation, according to your priorities

POWERFUL ENCRYPTION MANAGED NATIVELY BY ESET PROTECT

ESET Full Disk Encryption is a feature native to the ESET PROTECT console. It allows one-click deployment and encryption of data on connected Windows and Mac endpoints. ESET Full Disk Encryption significantly increases your organisation's data security and helps you comply with data protection regulations.

- Manage encryption on Windows and macOS machines
- Encrypt system disks, partitions or entire drives
- Deploy, activate and encrypt devices in a single action

CONSOLE—ESET'S UNIFIED PLATFORM INTERFACE

ESET PROTECT is a cloud-based or on-prem multifunctional remote network security management tool for ESET business security products across all operating systems. It enables one-click security deployment and the cloud console gives you network visibility without the need to buy or maintain additional hardware, reducing total cost of ownership.

- Seamless setup and deployment
- Cloud deployment does not require additional hardware or software
- Single point of network security management
- Saves time with automated tasks

ADVANCED THREAT DEFENSE WITH CLOUD SANDBOXING TO PREVENT RANSOMWARE

ESET LiveGuard Advanced provides proactive protection against new, never-before-seen threats, by executing all submitted suspicious samples in an isolated and powerful cloud sandbox environment, in order to evaluate their behaviour using threat intelligence feeds, ESET's multiple internal tools for static and dynamic analysis, and reputation data.

- Advanced unpacking & scanning
- Cutting-edge machine learning
- In-depth behavioural analysis
- Cloud sandboxing

ESET MANAGED DETECTION AND RESPONSE

Add MDR to ESET PROTECT Enterprise to create your complete, managed security solution. ESET Managed Detection and Response provides effective help with incident investigation, performs robust analysis of potentially harmful files, and implements response and remediation steps to ensure business continuity.

About ESET

WHEN TECHNOLOGY ENABLES PROGRESS, ESET® IS HERE TO PROTECT IT.

ESET brings over 30 years of technology-driven innovation and provides the most advanced cybersecurity solutions on the market. Our modern endpoint protection is powered by unique ESET LiveSense® multilayered security technologies, combined with the continuous use of machine learning and cloud computing. Backed by the world's best threat intelligence and research, ESET products offer the perfect balance of prevention, detection and response capabilities. With high usability and unparalleled speed, we are dedicated to protecting the progress of our customers, ensuring maximum protection.

RECOGNITION

ESET received the Business Security APPROVED award from AV - Comparatives in the Business Security Test in December 2022.

ESET consistently achieves top rankings on the global G2 user review platform and its solutions are appreciated by customers worldwide.

ESET has been recognised as a 'Top Player' for the fourth year in a row in Radicati's 2023 Advanced Persistent Threat Market Quadrant.
