Products:  
ESET Endpoint Security and  
File Server Security

### THE PARTNER

Nothing But NET is a strategic services provider that offers a comprehensive suite of both remote and on-site IT services. Its business solutions include Managed Services, Network Assistance, Cyber Security, Private Cloud and Managed Hosting. Over the years, the company has been recognized as a top MSP and high-growth company, appearing on lists such as the CRN-MSP 500 and the Inc. 5000 List (among others) published by the likes of industry experts.

### WHY Nothing But NET CHOSE ESET

“Our business is not limited by any one vertical; instead we choose to center our focus around helping small businesses in all markets,” explains company president Bob Cox. “Currently, we have customers in schools and non-profits as well as financial and industrial markets. Companies like these are typically looking for help desk services, backup and cybersecurity solutions ranging from antivirus to spam filtering to hardware firewalls.” For endpoint protection,

Bob adds, “ESET endpoint and File Server Security products meet 100 percent of our clients’ needs.”

“I’ve been a fan of ESET’s home products for many years,” he continues. “It was only natural to shift into the corporate products. These products have a natural ease regarding managing our clients. ESET PROTECT management console updates have solidified what I like most about the ESET software and management solutions. The management agent has turned out to be extremely useful for our techs and for other activities as well, such as quickly identifying computers or automating tasks like Windows updates.”

In summary, he explains, “ESET is an important part of our success and growth at Nothing But NET. Its solutions truly have an edge in the market and give our clients confidence they are protected. On the client-facing side, ESET’s products provide full security functionality with complete control over the customer experience.”
